9. Operation [redacted] Progress - The [redacted] operations plan had apparently evoked little enthusiasm from the Air Force. General Cabell requested that the DPS Staff prepare a detailed justification of the best operations for his evaluation and further action. Mr. Reber had also prepared two papers on ELINT for use in discussions with General Cabell.

25X1A

ACTION: Col. Burke, Mr. Reber, Operations SUSPENSE: 17 July

In this connection it was noted that support aircraft could become a problem if there were a priority requirement to remove U. S. civilians from the Middle East. A discussion of the desirability of slipping the whole operation a week (with a new operational readiness date of 3 August) resulted in a decision to recommend such a delay to Mr. Bissell by telephone.
